

ENVIRONMENTAL CHECKLIST

Project Title: _____

Applicant: _____

Date Checklist Completed: _____

This preliminary environmental checklist is designed to make the applicant aware of major environmental concerns that should be addressed in project planning and budgeting. Each successful applicant will be required to prepare an environmental review record, and if appropriate, an environmental assessment in accordance with the National Environmental Policy Act of 1969, as amended. The environmental assessment involves an examination of the environmental conditions and circumstances that exist at the location of the project and a determination of project impact on those environmental conditions. In addition, each project must be reviewed for compliance with other applicable environmental laws and regulations. If any of the following questions elicit an affirmative response, additional information must be provided as part of the environmental review.

1. Is the project located within a flood hazard area, wetland or coastal zone? Yes No

List the activities to be carried out in a flood hazard area, wetland or coastal zone?

2. Will the project require the dredging or filling of any waterway/body of water? Yes No

3. Will the project be located near a source of noise pollution, within the accident potential zone of military or civil airport, near a major highway, railroad, chemical storage tank, sanitary landfill site, area of potential landslide or unsuitable soil conditions, nuclear waste dump or any other such natural or man-made safety hazard? Yes No

4. Will the project adversely affect the air/water quality of the area? Yes No

5. Are there any properties or districts within or adjacent to the project area listed on the National Register of Historic Places? Yes No

Date National Register Checked: _____

Are there any other structures 50 years or older within or adjacent to the project area? Yes No

If yes, will any of these historic places be affected either physically or visually by the project? Yes No

Will any grave sites or archeological sites be affected by the project? Yes No

6. Will any endangered plants or animal species (or its habitat) be affected by the project? Yes No

7. Will the project destroy or adversely affect any prime or unique farmlands? Yes No
